(Uneven weave is authentic for antique reproduction samplers)

Please note: For those of you unfamiliar with the superior quality of this wonderfully rolled-woven linen from Scotland, it is truly the finest weave you could possibly treat your needles to.

For color clarification, either visit my web site, or regard this simple comparison: Glenshee natural, unlike our natural unbleached "browns", is equivalent to the hue DMC #739, and Glenshee Ivory is equivalent to DMC #712

Minimum cut is one yard please.
